

**Amendment 5 to the Fishery Management Plan for the Dolphin and Wahoo Fishery off the Atlantic States  
(Dolphin Wahoo Amendment 5)**

*Frequently Asked Questions  
February 2014*

**What is the purpose of Dolphin Wahoo Amendment 5?**

- Dolphin Wahoo Amendment 5 would increase the acceptable biological catch estimates, annual catch limits, and recreational annual catch targets for dolphin and wahoo.
- The revisions incorporate updates to the recreational data for these species, as per the new Marine Recreational Information Program as well as revisions to commercial and for-hire landings.
- Accountability measures for dolphin and wahoo would be revised to include a pay-back provision, in addition to an in-season closure.
- The framework procedure for dolphin and wahoo would be revised to include revisions of annual catch limits, acceptable biological catch control rule, accountability measures, the Southeast Data, Assessment, and Review process for stock assessments, and the South Atlantic Fishery Management Council's Scientific and Statistical Committee's review of the stock assessments.
- Dolphin Wahoo Amendment 5 would allow acceptable biological catch estimates, annual catch limits, and recreational annual catch targets for dolphin and wahoo to be modified using an abbreviated framework procedure to shorten the time it would take to make routine changes to harvest limits in response to new information from a stock assessment.

**Why is Dolphin Wahoo Amendment 5 necessary?**

- NOAA Fisheries no longer uses the Marine Recreational Fisheries Statistics Survey and now estimates recreational landings using the Marine Recreational Information Program.
